

Subject: Application for Security Analyst – Shay Mordechai

Dear Hiring Team at Jamf,

I am writing to express my strong interest in the Security Analyst position at your Tel Aviv office. With a background heavily rooted in vulnerability discovery, low-level protocol analysis, and massive log manipulation, I am eager to bring my attacker-mindset to Jamf's mission of protecting organizations and their Apple ecosystems from emerging mobile threats.

In my recent vulnerability research, I orchestrated a custom Python fuzzing workflow that led to the discovery of 3 Zero-Day vulnerabilities in the SBCL compiler (CVEs pending, reported to MITRE and the National CERT). This experience ingrained in me a deep understanding of memory architectures, exploit mechanics, and how threat actors leverage structural flaws to bypass isolation boundaries—skills directly translatable to researching zero-day attacks and analyzing mobile malware trends.

Furthermore, during my DevSecOps tenure at the Israel Tax Authority, I honed my threat detection and data analysis capabilities. I performed massive data manipulation on over 1TB of daily system and device logs to identify anomalous behaviors and drive actionable Incident Response. This hands-on experience in high-volume environments ensures I can quickly tune detections and parse complex data to proactively hunt for malicious signs.

Recognizing the rapidly evolving landscape of mobile and advanced exploits, I am currently dedicating my continuous learning to Advanced Malware Analysis. I am actively deepening my expertise in static and dynamic analysis, IoC extraction, and writing custom Yara rules—ensuring my detection engineering skills remain sharp, proactive, and perfectly aligned with your team's operational needs.

I am highly drawn to Jamf's #OneJamf culture of continuous self-improvement and its commitment to securing devices without compromising the user experience. I would welcome the opportunity to discuss how my background in vulnerability research and threat detection aligns with your goals.

Thank you for your time and consideration.

Best regards,

Shay Mordechai 052-306-4991 | shay.mordechai@proton.me LinkedIn: <https://www.linkedin.com/in/shay-mordechai/> Portfolio: <https://shay-mordechai.github.io/cv/>
